

## Zoom In: Hierarchical View to Bin Locations

Your warehouses are perfectly organized and each item is in place? This is great but, it can get better: with the hierarchical view of the Bin Location Content List report, you can get a detailed view of each warehouse, sub-level or bin, with exact quantities and other details related to the given items.

#	Select	Item No.	Warehouse	Aisle	Shelf	Level	Bin Location	Item Qty
1	<input type="checkbox"/>	▼ A00001						183
2	<input type="checkbox"/>		▼ 05					183

								31,146

To generate the report choose: Inventory > Inventory Reports > Bin Location Content List. In the “Bin Location Content List” window, in the “Report View” choose the option: “Hierarchical”. Now you can adjust the column order, the granularity of the data, and much more.

You can also generate the report for a given item and warehouse from the context menu within Item Master Data > Inventory Data tab.

Available since SAP Business One 9.1, version for SAP HANA PL04 and SAP Business One 9.1 PL04.
